

# MCI Report: Additional Figures

May 28, 2021

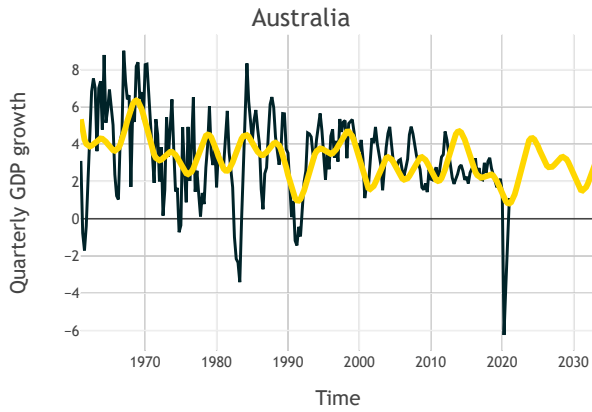

Figure 1: harmonic regression fit for Australia.

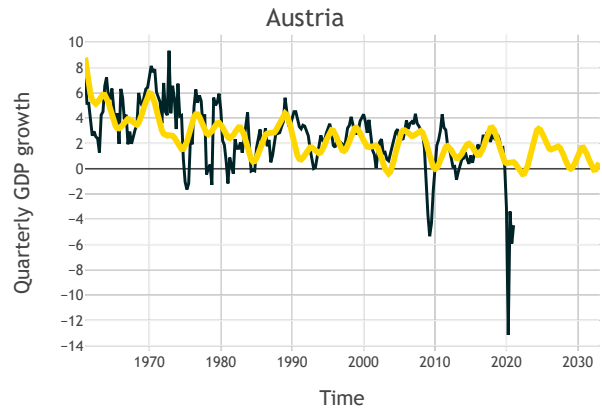

Figure 2: harmonic regression fit for Austria.

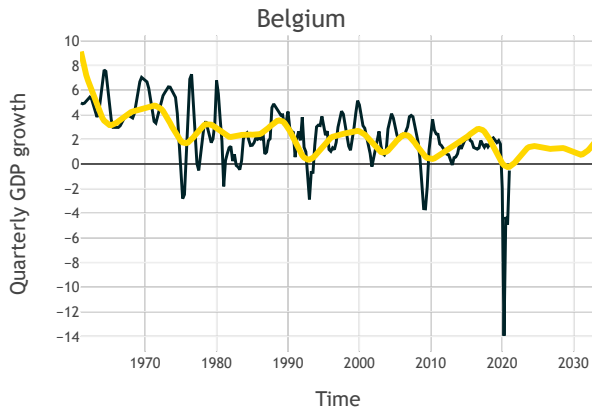

Figure 3: harmonic regression fit for Belgium.

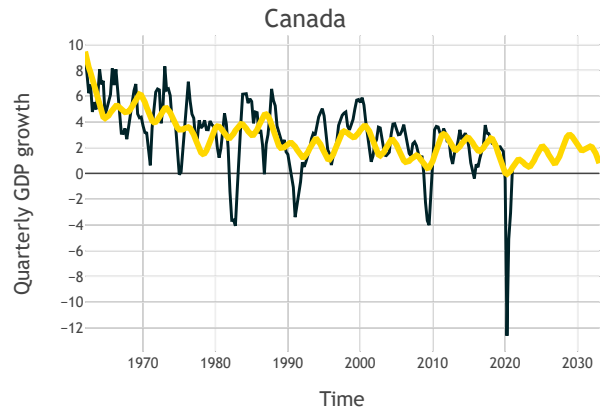

Figure 4: harmonic regression fit for Canada.

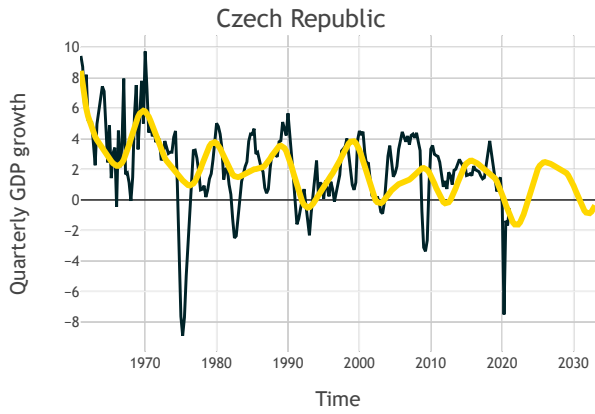

Figure 5: harmonic regression fit for Czech Republic.

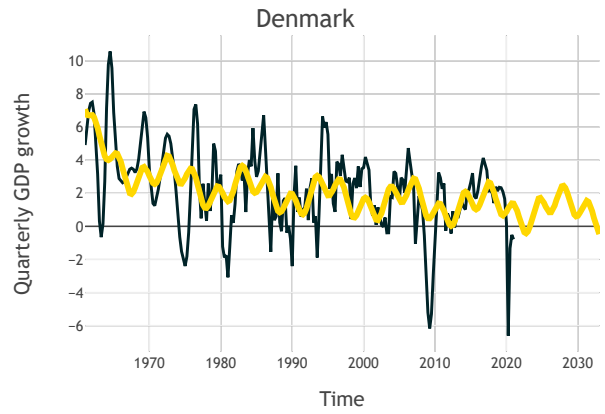

Figure 6: harmonic regression fit for Denmark.

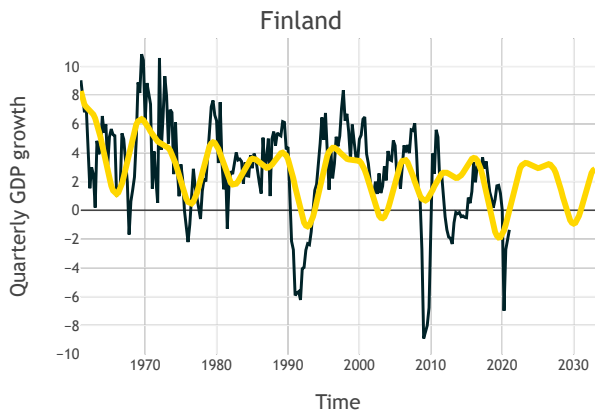

Figure 7: harmonic regression fit for Finland.

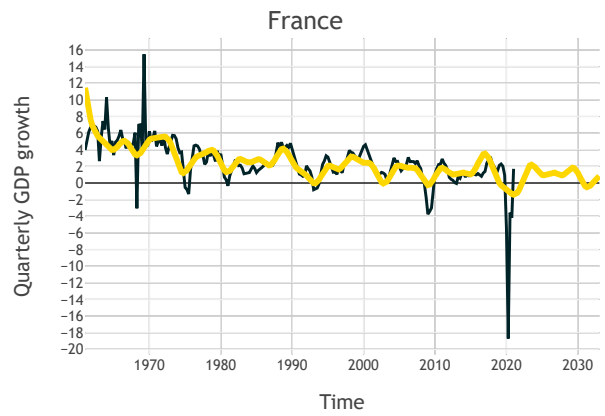

Figure 8: harmonic regression fit for France.

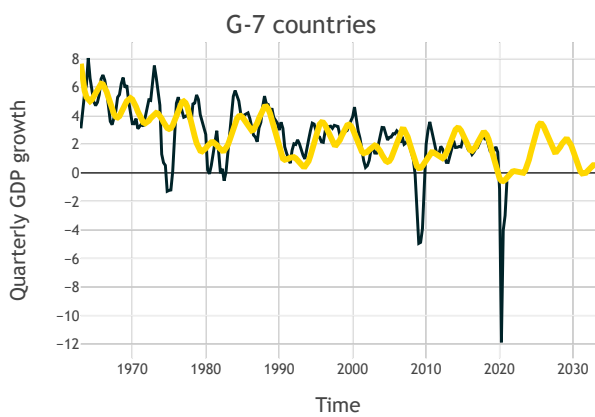

Figure 9: harmonic regression fit for G-7 countries.

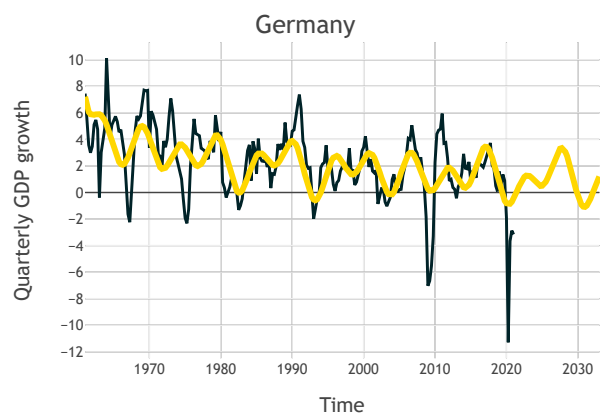

Figure 10: harmonic regression fit for Germany.

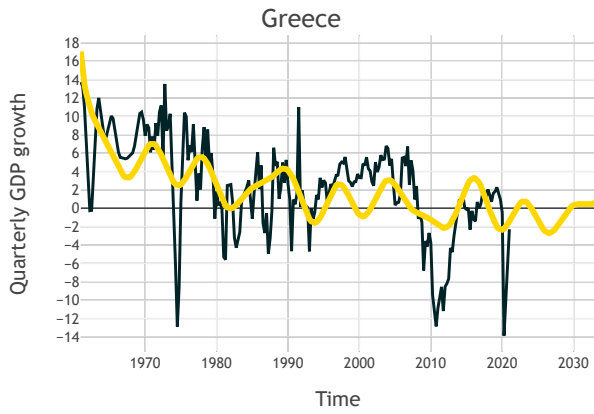

Figure 11: harmonic regression fit for Greece.

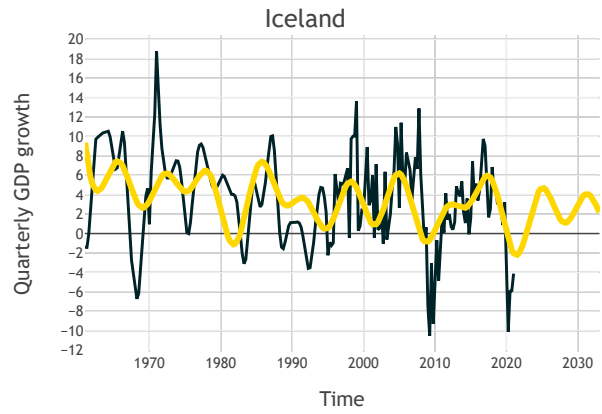

Figure 12: harmonic regression fit for Iceland.

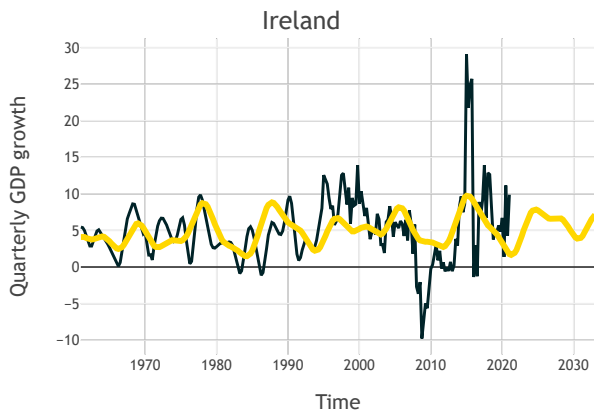

Figure 13: harmonic regression fit for Ireland.

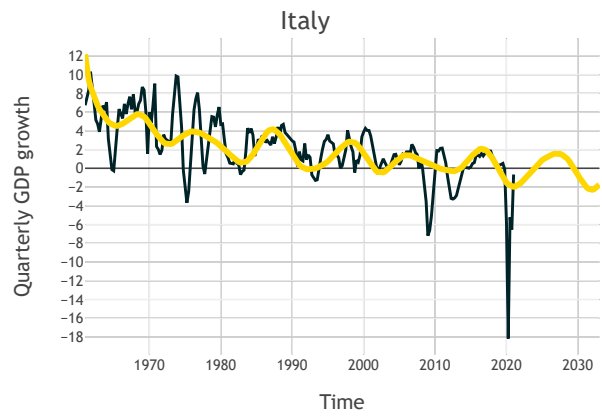

Figure 14: harmonic regression fit for Italy.

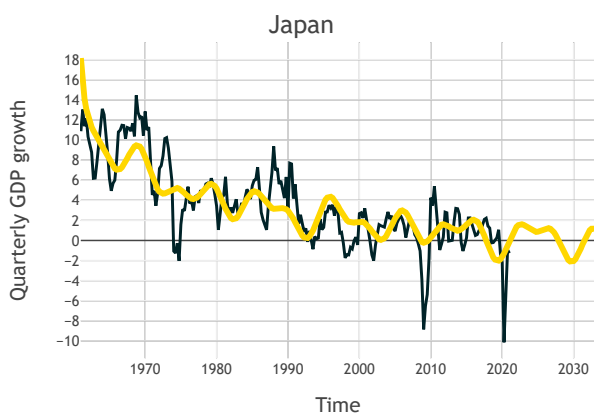

Figure 15: harmonic regression fit for Japan.

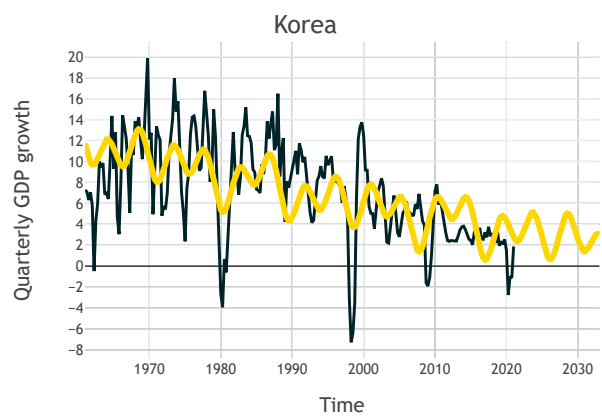

Figure 16: harmonic regression fit for Korea.

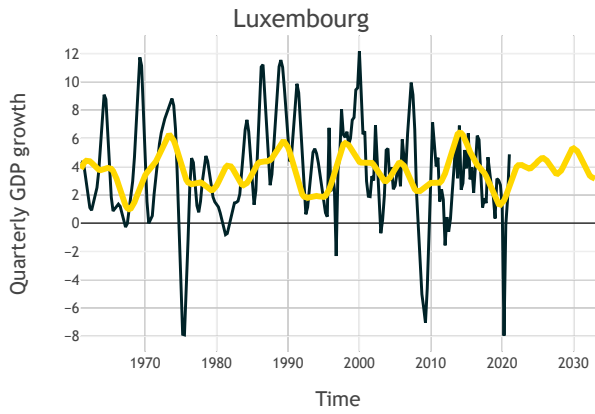

Figure 17: harmonic regression fit for Luxembourg.

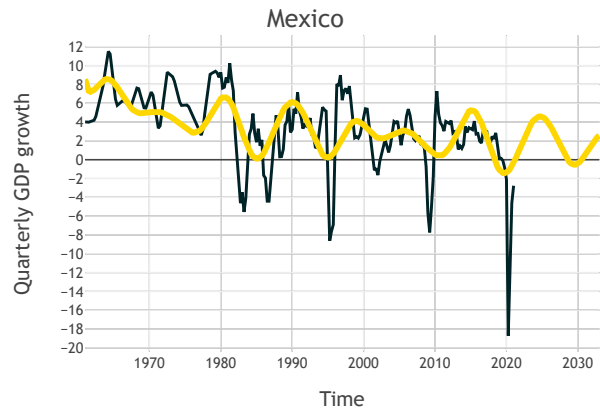

Figure 18: harmonic regression fit for Mexico.

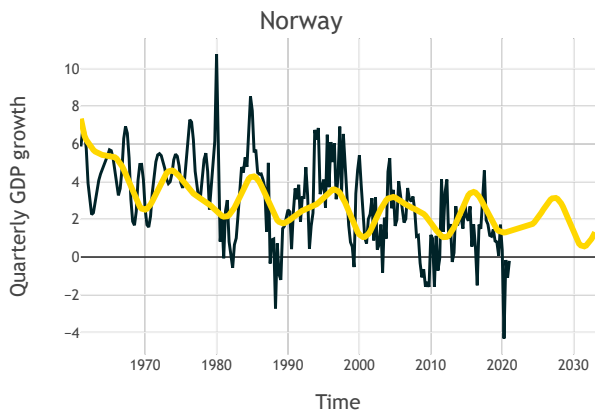

Figure 19: harmonic regression fit for Norway.

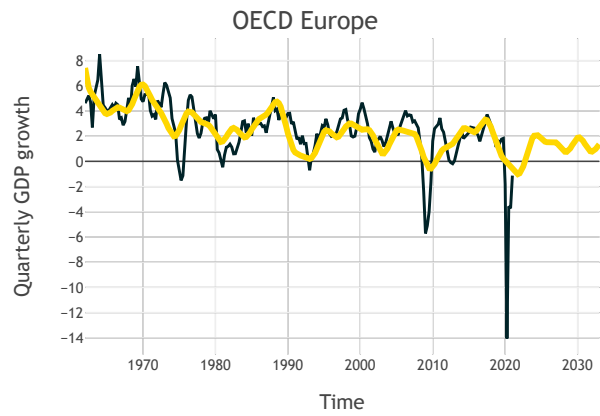

Figure 20: harmonic regression fit for the European OECD countries.

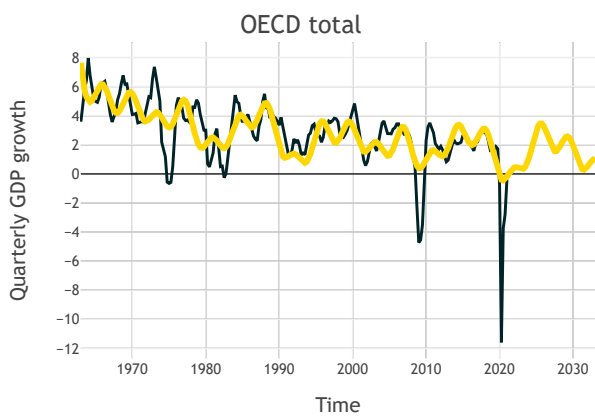

Figure 21: harmonic regression fit for all OECD countries.

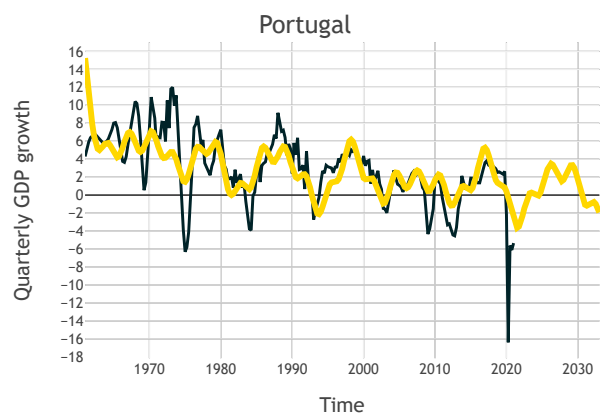

Figure 22: harmonic regression fit for Portugal.

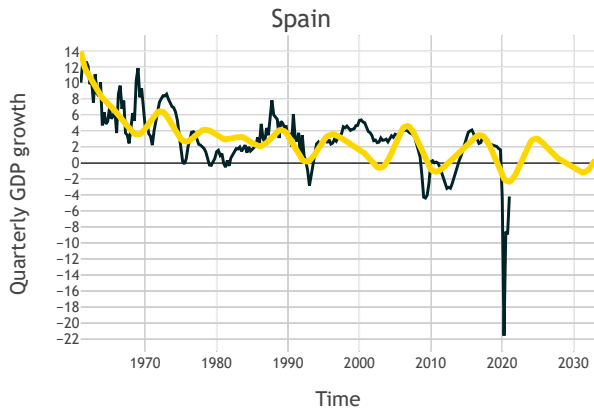

Figure 23: harmonic regression fit for Spain.

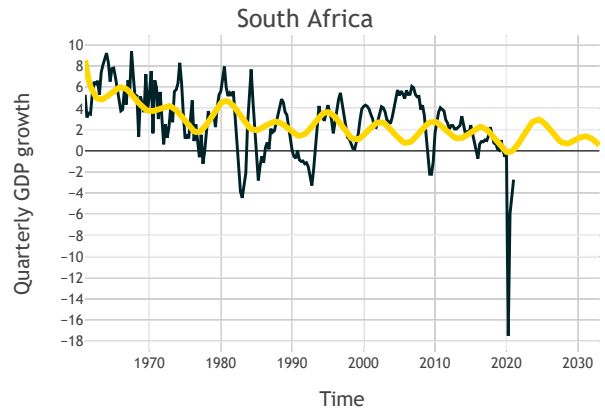

Figure 24: harmonic regression fit for South Africa.

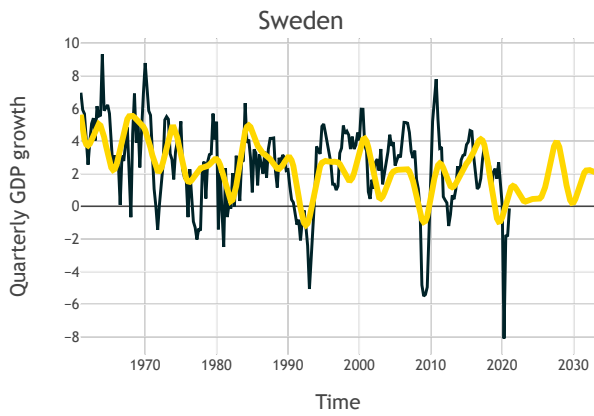

Figure 25: harmonic regression fit for Sweden.

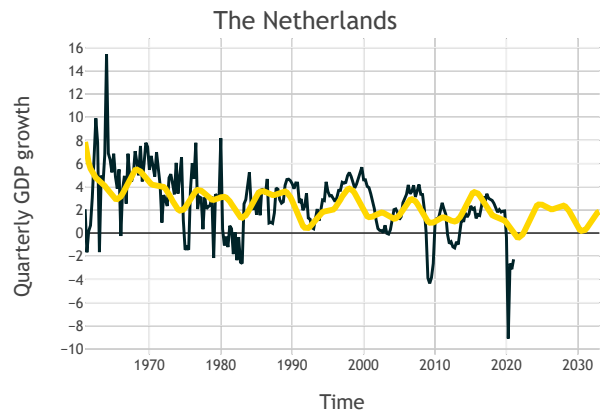

Figure 26: harmonic regression fit for The Netherlands.

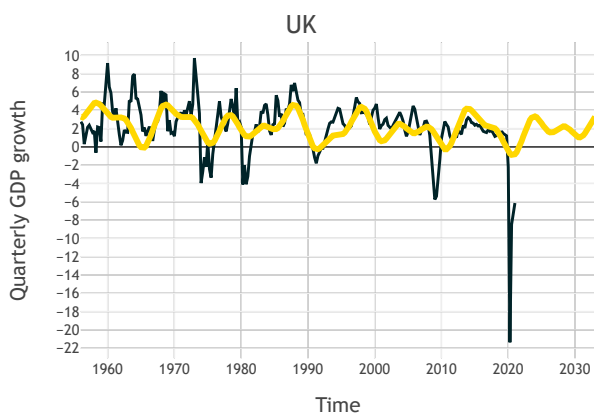

Figure 27: harmonic regression fit for UK.

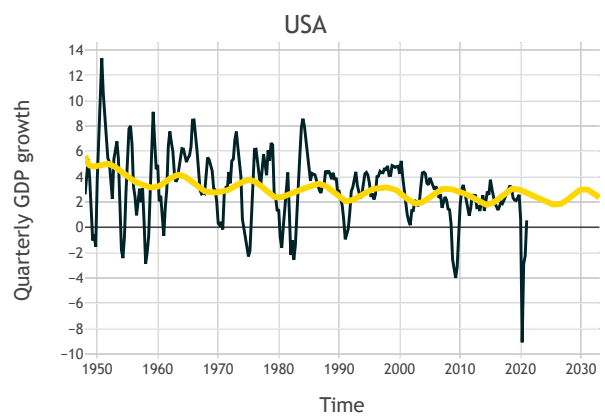

Figure 28: harmonic regression fit for USA.
